Trends in Texas and the AAMPO region

Road to Zero Goal Development

In May of 2019, the Texas Transportation Commission (TTC) adopted Minute Order 115481, directing TxDOT to work toward the goal of reducing the number of deaths on Texas roadways by half by the year 2035 and to zero by the year 2050.

The calculations for the fatality goal was developed by using the following formula:

FY2019 CRIS Fatalities

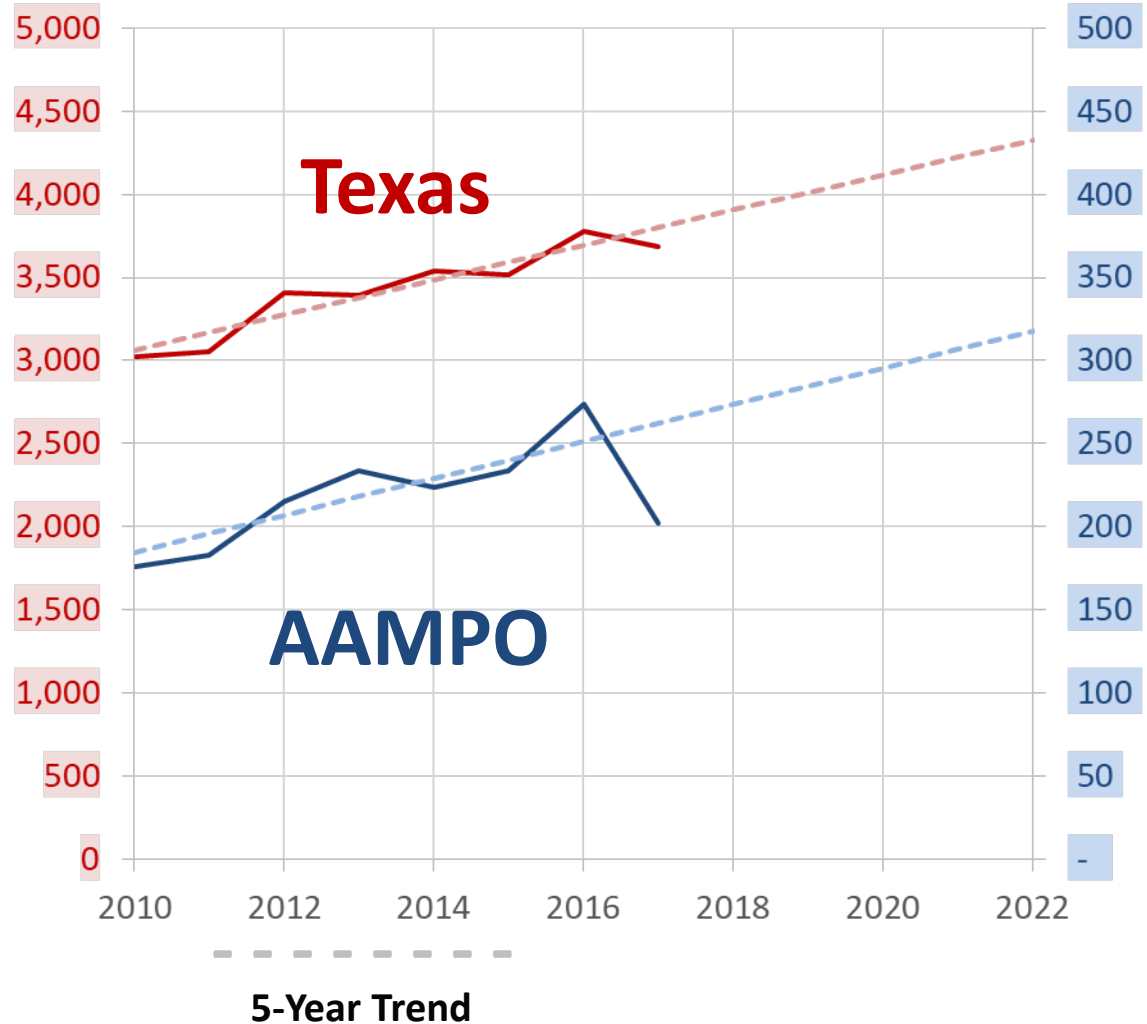

2050 – current year

FY2019 CRIS Fatalities = year the Road to Zero direction was adopted

Historical 2020 Target Development

TxDOT calculated a **linear trend** based on five years of regional crash data and projected it to **2022**, the year of their Strategic Highway Safety Plan. AAMPO mirrored the statewide methodology.
